To Whom it may concern;

Re : Bould Consulting Services

In the period following a hurricane or other natural disaster, in our case Hurricane Irma, the world is chaos. There are so many things to do. You find yourself exposed to a whole new terminology of insurance underwriters and the forms that need completing are endless, it is difficult to know where to start. We were fortunate to be introduced to Bould Consulting Services.

Bould helped us to navigate our way through the insurance process. They deciphered the forms and assisted us to complete our initial claim. They then worked with the Adjuster, helping us to reach a fair settlement of the claim in a timely manner.

The assistance did not stop there. After payment of the claim Bould worked with us to document the repair work as it was completed to allow us to drawdown funds from our bank.

It is good to have a steady and experienced hand on the rudder in turbulent times. We feel fortunate to have had the support from Bould and have no hesitation in recommending them to others.

Yours sincerely,

David Harris
