To whom it may concern

BOULD CONSULTING

After the severe damage caused by hurricane Irma in September 2017 , we engaged Bould Consulting to determine the extent of the damage caused, agree the scope of work with the insurers, supervise the preparation of estimates from contractors, prepare the claim for submission to the insurers, submit it and attend initial meetings with the insurers representatives.

Bould Consulting carried out all of the above work in a very professional manner and were a pleasure to deal with on a personal basis. We found them flexible and efficient.

The result for us was that the insurance company made substantial interim payments to allow us to to start work while the final payment was being determined. Additionally we were very satisfied with the final settlement with the insurance company that was obtained on the basis of the work carried out out by Bould Consulting.

Employing Bould Consulting to handle the claim was extremely cost effective for us and we would undoubtedly use Bould Consulting for any future insurance claim we might have.

Yours faithfully
